2014 PAN PACIFIC MASTERS GAMES SOFTBALL

TEAM DISTRIBUTION

Over **35 ladies** teams who **nominated into either A, B, or C Grades** HAVE BEEN **grouped** into homogenous **Pools, A, B, C, & D**. Some miss-matching may occur in these games. The way the competition is set-up, there is no point to scoring heaps of runs and demoralising your opponents. The best thing you can do is not have many runs scored against you and to play as many defensive innings as you can. The Defensive Average formula is; "Runs Scored Against" divided by "Defensive Innings Played" and the smaller the better result. **These four pools become Divisions 1 & 2 from Monday.**

Placing criteria for the whole tournament is in this order;

- **Points**
- **Defensive Average**
- **Head to Head Games**

Play it, Live it, Love it!
