## Division Match-Ups

Where fighters are outside their respective divisions, the matchmaker will create a “Catch Class”

- E.g. a 44yo, super heavy weight, has no direct match-up but there's a 40yo with similar experience and weight also has no match-up. The matchmaker will match them as Super Heavyweight, combat class, catch age

If a fighter falls just outside of a division, and they have no match up, the matchmaker may include that fighter in the next closest bracket.

Limited age differential is allowed for the next bracket inclusion.

A fighter cannot go down to the next experience level, but a fighter may nominate to go up.

No more than 10 years age differential in any match-up.
