

# Certificate of Medical Disability

Please ensure you use the current year's form

**Rule SW14.2M - Medical Disability (MD) states:**

*A swimmer with a non-manifest disability shall provide a medical certificate stating the swimming action (s) that may/will be affected. The certificate must be signed by an eligible healthcare practitioner, that is a medical doctor, physiotherapist, chiropractor, or osteopath.*

*Note: Non-manifest is not obvious to the eye, e.g. having only one leg is obvious or manifest.*

The disability may be permanent or temporary and must prevent the swimmer from doing one of the stipulated actions in butterfly and/or breaststroke according to the Rules of Masters Swimming Australia (see attached form for details).

**Unless the letter "P" for Permanent** appears against all of the applicable categories, a new form must be completed for renewal each year at the time of re-registration. If the MD is permanent, then the form only needs to be submitted to the National Office once.

A temporary MD which has not been overcome must be renewed each year when the swimmer re-registers.

The Medical Disability form must be signed by the eligible healthcare practitioner for the Medical Disability to be registered. Each of the stroke action boxes must be marked with a ✓, ✓P or ✗ as applicable before the form is signed.

Once the form has been completed the following steps are required:

1. The original form must be signed by any one of the club's executive members (President, Vice-President, Secretary, or Treasurer).
2. Three copies of the signed form need to be made:
  - one copy for the member's own records;
  - one copy for the club's records;
  - one copy for the Branch records.
3. The club must then forward the **original form** to the National Office at:  
Masters Swimming Australia  
Sports House, Level 2, 375 Albert Road, Albert Park VIC 3206.

If the disability occurs during the year (after re-registration), the certificate must be registered with the National office as soon as possible. If a swimmer is contemplating entering any Masters Swimming Australia Swim Meet, the form must be registered at the National office by the close of entries.

Medical disability certificates are not accepted for the MSA National Championships.

If a Medical Disability has occurred after the close of entries for a Swim Meet the swimmer may present the certificate to the Meet Director of the Swim Meet. It is then up to the discretion of the Referee if the form is accepted or not for that meet. **The form will subsequently have to be processed as per steps 1, 2, and 3 above.**

**Please note this rule applies to Masters Swimming Australia events only. No other organization allows for non-manifest disabilities.**

For any further enquiries, please contact your Branch office/Secretary.
